CONTINENTAL Aircraft Engines For Sale - Overhauled, Used ...

This would not require an STC because we would not have a horsepower increase.In this case, the 65 horsepower rating would have a tachometer red line of 2300 RPM. I would thus provide a modification specification sheet and an approval for the de-rated A75, which costs \$250.

The A75 Continental Engine Dilemma - Blogger

The Continental O-190 (Company designations C75 and C85) is a series of engines made by Continental Motors beginning in the 1940s. Of flat-four configuration, the engines produced 75 hp (56 kW) or 85 hp (63 kW) respectively.. The two variants shared the same bore, stroke and compression ratio. The C85 produced ten extra horsepower by virtue of having a maximum permissible rpm of 2575 versus ...

CONTINENTAL Aircraft Engines For Sale - Used, New, &Overhauled

The 65 hp Continental is a 4-cylinder, air-cooled, horizontally opposed engine. Its rated HP is at 2300 rpm at sea level. It has a displacement of 171 cu ins. with a bore of 3.875 ins and stroke of 3.625 ins. Valves are in head with one exhaust valve per cylinder.

AAM - Engines - Continental

Around 1943, Continental began work on an engine series based on a new cylinder with a 4.0625" bore, an increase of 0.1875" from the 3.875" bore used in A-series engines. Stroke remained at 3.6250", and the compression ratio remained at the same 6.3:1 value that had been used in A-65s and A75s, allowing the use of 73 octane fuel.

Welcome to Continental AerospaceTechnologies' Factory New ...

The 65 lycoming is only 145 cubic inches and a weak 65 hp. The Continental is 170 cubic inches and has a lot more torque. People with PA-15 Vagabonds say the PA-17 with the Continental has much better performance. Continental swings a bigger prop too.

Weight of 65hp Lycoming and 65hp Continental??? [Archive ...

Despite it being rated as 65 HP, the Lycoming O-145 seems a bit anemic for Fly Babies (See Harry Fenton's write-up.as to why this *65 HP engine isn't as effective as the 65 HP A-65). The O-290 is a bit too heavy, but the O-235 is just right. It's about the same weight as an O-200, and has been used successfully in Fly Babies.
