An Outline For Creating An Instructional Design Document ...

A software design description (a.k.a. software design document or SDD; just design document; also Software Design Specification) is a written description of a software product, that a software designer writes in order to give a software development team overall guidance to the architecture of the software project. An SDD usually accompanies an architecture diagram with pointers to detailed feature specifications of smaller pieces of the design.

Software design description - Wikipedia

Writing a Scope of Work (SOW) for a website. This document discusses the general items you need in a SOW for a website, but because projects can vary so much, you may need to include more items in your SOW. Today, we're going to look at how to produce a Scope of Work (SOW) document for your website or app project and get it approved by your client.

Building a Scope of Work (SOW) document for a website project

The System Design Document is a required document for every project. It should include a high level description of why the System Design Document has been created, provide what the new system is intended for or is intended to replace and contain detailed descriptions of the architecture and system components.
