### Renault J (Douvrin) engines

The engine J7T in the R25 was with 123 HP (as J7T 706 or J7T 707 for automatic transmission). In September 1986, the performance was increased to 126 hp, the engines were now called J7T730 (for manual transmission) and J7T731 (for automatic transmission).

### Renault Engines - Douvrin engine (1977-1997)

Valve adjustment is so very important to these engines. Since the valves on the two Renault power plants have no system (hydraulic valve lifters) to automatically keep valve clearance within limits, they must be manually adjusted. When this (or any engine) is designed, the designer, after thoroughly testing the engine, determines the various operating clearances. It is a clearance that allows ...
