### Why Is My Service Engine

Service Engine Soon Light Meaning. If the 'Service Engine Soon' light comes on, it means that there is a minor problem with the electronics or the engine of your car. Some manufacturers use them as a check engine light for minor problems. It could also mean that it is time for a scheduled service, such as oil or spark plug replacement. Some manufacturers only have one indicator for both scheduled service and engine problems.

### Service Engine Soon Light [How to fix it?] Meaning & Causes

The service engine soon light is often mistaken for the check engine light. The check engine light is a light to warn you to a possible issue with your exhaust system or emissions system. The service engine soon light can come on for minor issues like a loose gas cap, or for more major problems such as possible engine failure. Your Service Engine Soon Light Should Not Cause You to Panic

### What Does the Service Engine Soon Light Mean on a Nissan ...

A flashing check-engine light generally indicates that there is a failure in the emission control system. The emission control system contains an array of sensors that work to reduce the amount of pollution released into the air. An oxygen sensor reads the air and fuel mixture and lights up when it is out of range.

### Why Is My Check Engine Light Flashing? | It Still Runs

Another possible culprit triggering the "service engine soon" light is misfiring spark plugs. Spark plugs on older vehicles (before 1996) needed to be changed every 40,000 to 50,000 kilometers; on more modern vehicles spark plugs can go to 150,000 km before needing to be changed.
